

Hi,

Where did this journey start, why did it start and what is this journey all about?

A while ago, a friend asked me that question and to be frankly honest, I never thought about it, however, for you, it might make the difference of being interested or even become a partner of this amazing journey.

In 1977 René travelled to Maloja Switzerland as a 12 year young kid learning how to Ski and got super excited about the "Log Home" style houses. He started dreaming about building his own Log Home "One Day" and in 1995 René went back to Switzerland and travelled from Lausanne to Aigle. Funny enough he saw so many Log Homes that he made a decision. He was going to build a Log Home.

In 2002 René moved to a Log Home in Belgium and had the time of his life! That same year he made a road trip in the USA from East to West through the southern part of the US and during that trip he got to see so many different types of Log homes that the inspiration only grew.

Since 1995, René's seminars, keynotes and trainings around the world have been changing businesses with amazing levels of positive increase. He shared stages with Brian Tracy, Jairek Robbins, Jack Canfield and many other influential speakers. In collaboration with Success Resources, René is hosting preview sessions for Anthony Robbins' Unleash The Power Within including the famous Fire walk!

In 2015 René started his in depth research and as a result of the many travels related to the body language training sessions that he shared all over the world, he also developed a passion for wellness. Today, 8 years later he's at the point of building it for real, starting in Ras Al Khaimah - UAE.

The Dalai Lama, when asked what surprised him most about humanity, he said:

*"Many people sacrifice their health in order to make money, then they have to sacrifice their money to recuperate their health."*

The "Back to Nature Wellness Resort" will actually take its customers on an amazing relaxed cleansing journey, however, with an outcome to make sure the individual experience a transformation and breakthrough in their diet and lifestyle. The staff will pay attention at all time to ensure that each customer has an outstanding time at the resort.

And finally, the ecological concept combined with a strong vision and purpose is a business idea ahead of the trend and contains a strong strategy and an unstoppable global financial growth.

Hope this finds you well and I look forward to connect.

Sincerely yours,

René Deceuninck
