Back to Nature Resort - Ecological Luxury Leisure

- We at IPB Ltd in collaboration with N.E.R. Management & Consultancies Dubai and the local Government in Dubai are developing the World's first Ecological Self Sustainable Luxury & Wellness Village of its kind in Dubai.

- His Highness Sheikh Mohammed bin Rashid Al Maktoum has launched the Dubai 2040 Urban Master Plan, with directives for Dubai to become the world's top city for quality of life. The next 20 years will see a clear roadmap for sustainable development & ambitious projects that place happiness at the forefront of our goals.

- The Dubai 2040 Urban Master Plan maps out a comprehensive plan for a sustainable urban development in Dubai. It focuses on enhancing people's happiness and quality of life and reinforcing Dubai as a global destination for citizens, residents and visitors over the next 20 years.

- BNR will be Ecological Self Sustainable and Carbon Neutral. From 2030 forward there will be a "0 tolerance" CO2 standard. With the Ecologically self-sufficient Luxury & Wellness Resort we strive to revolutionize the market by providing a carbon neutral Village. The carbon footprint is 70 % reduced in construction, operations and travel.

- Various Partnership Opportunities

IPB Ltd and NER Dubai are continuously looking for ways to collaborate with companies and businesses, who share our passion to be ECO friendly and have the opportunity to enjoy high-end luxury and wellness at the same time.

- Becoming a Shareholder with IPB Ltd and N.E.R. Dubai

We offer investment opportunities with attractive Return on Investment (ROI) for private Equity investors. Let's work together and become a part of this forward-looking ECO/Luxury project.

- All information is available on demand.

Kind regards,
René Deceuninck
